1 THE ISSUE STATUS AND DISTRIBUTION

The Register of Legislation is the property of Mervyn Lambert Plant Ltd. It is a controlled document and is approved for adequacy prior to issue by the Health and Safety Manager

This document is reviewed and updated as necessary and re-approved prior to re-issue.

This document is available in hard copy and electronically to ensure that it is available at point of use.

Where this document is printed and distributed within the organisation a list is kept of all owners in order to control amendments and subsequent recalls (**Appendix A**).

Where copies are supplied to external individuals or organisations these shall be marked as uncontrolled at time of issue.

2 Purpose

To detail our established procedure for identifying and accessing applicable legal Health, Safety and Environmental requirements and to evaluate compliance with other requirements to which the organisation subscribes.

3 Responsibility

The Directors are responsible for identifying legal and other requirements and to ensure that the company is compliant.

It is our H&S representatives' responsibility to ensure that this procedure is communicated to all employees & contractors as applicable.

Our H&S representative is responsible for the issue of and all changes to this document.

4 Policy Statement

Mervyn Lambert Plant Ltd are committed to compliance with applicable legal and other Health, Safety and Environmental requirements that relate to its Health, Safety and Environmental hazards. Compliance to applicable legal and other requirements is demonstrated throughout our Health, Safety and Environmental Management systems.

To meet our policy commitments, we have a structured approach to ensure that the legal and other requirements can be identified, evaluated for applicability, accessed, communicated and be kept up-to-date.

Procedure Title		Legal & Other Requirements	
Ref Number	MLP-HSP-013	Pages	28
Written By	Rob Tyson	Authorised By	Mervyn Lambert
Revision Status	14	Issue Date	20/12//18
Issue Reason	Annual Review		

All personnel associated with our organisation are required to abide by our procedure and commit to the Health, Safety and Environmental management systems legal and other requirements in its entirety.

5 Operating Procedure

Legal requirements considered include:

- Legislation, including statutes, regulations and codes of practice;
- Decrees and directives;
- Orders issued by regulators;
- Permits, licences or other forms of authorisation;
- Judgements of courts or administrative tribunals;
- Treaties, conventions, protocols;

“Other requirements” considered include:

- Contractual conditions;
- Agreements with employees;
- Agreements with interested parties;
- Agreements with health authorities;
- Non-regulatory guidelines;
- Voluntary principles, best practices or codes of practice, charters;
- Public commitments of the organisation
- Corporate/company requirements;

Legal and other requirements are identified through the use of knowledge within our organisation and/or through the use of external sources such as:

- The internet;
- Libraries;
- Trade associations;
- Regulators / HSE;
- Legal services;
- Health, Safety and Environmental institutes;
- Health, Safety and Environmental consultants;
- Equipment manufacturers;
- Materials suppliers;
- Contractors;

Revision Status	14	Issue Date	20/12/18
Issue Reason	Annual Review		

- Customers;

From the results of the initial review we consider the legal and other requirements that are applicable to:

- our sector;
- our activities;
- our products, processes, facilities, equipment, materials, personnel;
- our location;

We communicate relevant information on legal and other requirements to all persons working under our control and other relevant interested parties to ensure understanding.

We evaluate our compliance during our management meetings and carry out a yearly compliance check. Records of these evaluations are maintained.

A review of our legal and regulatory requirements is conducted on an annual basis, or as required, when a need is identified, to ensure that we are kept up-to-date and are conversant with our obligations to them. This is in addition to the evaluation of compliance review.

ALPHABETICAL LIST OF STATUTES IN FORCE APPLICABLE TO MERVYN LAMBERT PLANT LTD AS OF APRIL 2013

**INCLUDING USEFUL ADDRESSES FOR HSE AND ENVIRONMENTAL ENFORCING AUTHORITIES
IN ENGLAND WALES AND SCOTLAND**

This Document is checked and updated twice a year

Preface

The information listed in this law register has been obtained from the following but not limited to these sources:-

HSE	Environment Agency	DEFRA	CEDREC
Barbour	Construction News	HSM	SHP
BSI	CIBSE	FPA	Workplace Law
IOSH	RoSPA	BOHS	Croner

External Health and Safety Providers

Brittania
Hire association Europe
St John Ambulance
Essential Skillz
NICEIC
Seaward

The alphabetical lists provides reference to such legislation and guidance that may on occasions be relevant to Mervyn Lambert Plant Ltd.

SOURCES OF LAW

The law on health and safety at work is a combination of criminal law and civil law. Criminal law contains a number of different strands and certain subtle differences exist between English and Welsh law, and the law that applies to Scotland and Northern Ireland. Criminal law has developed over centuries and is thus an amalgam of statutory law, common law and European Union law.

Statutory law consists of laws that have been made by an Act of Parliament. Governments may introduce a Bill to update existing laws or develop new ones to respond to changes in society. A Bill is debated in Parliament and once passed is drafted into law. Regulations and Orders also form part of statutory law.

Common law is also known as case law and is made by judges in the course of hearing individual cases. This is known as the system of "precedent". Precedent effectively means that a legal decision that was reached in a particular case will then apply to all subsequent similar cases. In theory this gives the law some degree of flexibility as it is allowed, so to speak, to respond to changes in public standards or society in general. At common law an employer has a "duty of care" towards employees. The courts have interpreted this as having a duty to:

- provide and maintain a safe place of work
- develop safe working methods
- provide competent fellow workers
- provide effective supervision.

The development of case law still remains an important source of law. This has particularly been the case in case law in respect of stress at work. A statement of law made by a judge in a case can become binding on later judges and can in this way become the law for everyone to follow. When a judge decides a case, he will state his reasons for that decision. The pronouncement (precedent) must be made from a

court of sufficient seniority. It is the higher courts which issue binding rulings and the lower courts must follow them. Other decisions by lower courts are said to be "persuasive". Since the introduction of the European Communities Act 1972, European law has had an increasing effect on UK law. European law consists of primary legislation (such as the Single European Act), secondary legislation (made up of directives, legislation and decisions) and case law. Any established UK law that contradicts European law will be overruled by its European equivalent through the European Court of Justice in Luxembourg.

Civil law is that section of the law that deals with disputes between individuals or organisations. Although it is much more wide-ranging it produces fewer cases in court as most are settled before they reach court in "out of court settlements". Civil law includes the law of torts. Torts are civil wrongs, i.e. forms of unacceptable behaviour actionable in court, which includes injuries suffered as a result of accidents at work.

Civil law has developed in a similar way to the development of criminal law, i.e. through a mixture of statutory law made by Government and 'precedent' created in earlier cases. One crucial difference between civil and criminal law is that the "burden of proof" required is lower in a civil case. A criminal case must be proved "beyond reasonable doubt" whilst a civil case only has to be proved on the "balance of probabilities", i.e. whether it is likely that the defendant is guilty.

STATUTORY LAW

Acts of Parliament are the primary source of law in the UK and with the exception of European law; an Act of Parliament is the supreme law of the land. Some Acts are brought into force by the use of statutory instruments known as "Commencement Orders", which activate parts of an act on a given date.

An Act may confer power on a minister to make new or additional law by means of regulations. Health and safety regulations are made under s.15 of the HSWA and are mostly designed to supplement and strengthen the provisions of the Act. A breach of a duty imposed by regulations is punishable as a criminal offence. Additionally, a breach may give rise to civil liability, except insofar as the regulations provide otherwise. It is possible for them to supersede specific provisions of the parent Act.

Orders are normally used when ordinary statutory instruments are inappropriate. Modern practice is to confer on the appropriate minister the power to make Orders. Section 85 of the HSWA enables the Secretary of State to make Orders in respect of health and safety. The Regulatory Reform Act 2001 enables the Government to make an Order to amend or repeal a provision in primary legislation and can so reform entire regulatory regimes (particularly where a legislative burden stems from overlapping legislation). Proposals must go through an extensive consultation process.

Local authorities have the power to pass bye-laws for the administration of their own area. This must be within the powers conferred by the parent Act of Parliament and must also be reasonable. It is possible to challenge the validity of bye-laws in court.

The HSWA is the main legislative framework governing the health, safety and welfare of all those at work and others who may be affected. The aim of the HSWA and legislation made under it is to encourage everyone to achieve high standards with respect to health and safety. The HSWA consists of four parts, as follows:

- Part 1 relates to health, safety and welfare with respect to work.
- Part 2 relates to the Employment Medical Management Service (EMAS).
- Part 3 amends laws relating to building regulations.
- Part 4 contains a number of miscellaneous and general provisions.

Some contracts may come under the rules of the CDM Regulations and as such, Mervyn Lambert Plant would seek to discharge its duties as with any other legislation. Generally, MLP would not be a primary duty holder (Principal Contractor, Designer etc) However, our remit may fall under the CDM term "Worker" In such cases we would seek to undertake the following:-

The worker is an individual working for, or under the control of, contractors on a construction site. They have their own duties as well as their employers.

Workers must:

- be consulted about matters which affect their health, safety and welfare, take care of their own health and safety, and of those who may be affected by their actions.
- report anything they see which is likely to endanger either their own or others' health and safety
- cooperate with their employer, co-workers, contractors, and other duty holders.

ALL of the above is a standard part of our induction and refresher training for all employees.

EUROPEAN LEGISLATION: DIRECTIVES

European Directives bind Member States as to the results to be achieved but generally leave a choice as to the form and method of implementation. Directives are available in the Official Journal: Legislation series (OJ L) from TSO (formerly the Stationery Office). Directives are also available at <http://eur-lex.europa.eu/en/index.htm>.

Framework Directive

89/391/EC Directive on the introduction of measures to encourage improvements in the safety and health of workers at work

Daughter Directives

89/654/EEC Directive concerning the minimum, safety and health requirements for the workplace
89/655/EC Directive concerning the minimum, safety and health requirements for the use of work equipment by workers at work
89/656/EEC Directive concerning the minimum, safety and health requirements for the use by workers of personal protective equipment
90/269/EEC Directive concerning the minimum, safety and health requirements for the manual handling of loads where there is a risk particularly of back injury to workers
90/270/EEC Directive concerning the minimum, safety and health requirements for work with display screen equipment

Hazardous Materials

98/24/EC Directive on the protection of workers from the risks related to chemical agents at work
99/92/EC Directive on minimum requirements for improving the safety and health protection of workers potentially at risk from explosive atmospheres
2000/39/EC Directive establishing a first list of indicative occupational exposure limits values

2001/60/EEC	Directive on the approximation of laws, regulations and administration provisions relating to the classification, packaging and labelling of dangerous preparations
2004/37/EC	Directive on the protection of workers from the risks related to the exposure to carcinogens or mutagens at work
2006/15/EC	Directive establishing a second list of indicative occupational exposure limit values
2008/112/EC	Directive amending Council Directives 76/768/EEC, 88/378/EEC, 1999/13/EC and Directives 2000/53/EC, 2002/96/EC and 2004/42/EC of the European Parliament and of the Council in order to adapt them to Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures
2009/2/EC	Directive amending, for the purpose of its adaptation to technical progress, for the 31st time, Council Directive 67/548/EEC on the approximation of the laws, regulations and administrative provisions relating to the classification, packaging and labelling of dangerous substances
2009/105/EC	Directive relating to simple pressure vessels
2009/148/EC	Council Directive on the protection of workers from the risks related to exposure to asbestos at work
2009/161/EU	Commission Directive establishing a third list of indicative occupational exposure limit values in implementation of Council Directive 98/24/EC and amending Commission Directive 2000/39/EC

Transport of Dangerous Goods

2006/89/EC	Directive on the approximation of laws of Member States with regards to the transport of dangerous goods by road
------------	--

Physical Agents

2002/44/EC	Directive minimum health and safety requirements regarding the exposure of workers to the risks arising from physical agents (vibration)
2003/10/EC	Directive minimum health and safety requirements regarding the exposure of workers to the risks arising from physical agents (noise)

Temporary Workers

91/383/EEC	Directive on the measures to encourage improvements in the safety and health of temporary workers
2008/104/EC	Directive on temporary agency work

Pregnant and Young Workers

92/29/EEC	Directive on the introduction of measures to encourage improvements in the safety and health of pregnant workers and who have recently given birth or are breast feeding
94/33/EC	Directive on the protection of young people at work

New Approach Technical Directives

New Approach Directives provide controls on product design and above all, seek to harmonize product safety requirements across Europe. Their primary objective is to ensure that the products are well designed, and safe for the user. Where a New Approach Directive is in force, it is necessary for the manufacturer to CE mark their product.

89/106/EEC	Directive on the approximation of laws, regulations and administrative provisions of the Member States on the approximation of the laws of the Member States relating to electromagnetic compatibility relating to construction products
89/686/EEC	Directive on the approximation of the laws of the Member States relating to personal protective equipment
90/396/EEC	Directive on the approximation of the laws of the Member States relating to appliances burning gaseous fuels
94/9/EC	Directive on the approximation of the laws of the Member States concerning equipment and protective systems intended for use in potentially explosive atmospheres
97/23/EC	Directive on the approximation of the laws of the Member States concerning pressure equipment
2006/95/EC	Directive on the harmonisation of the laws of Member States relating to Electrical Equipment designed for use within certain voltage limits

REGULATIONS

Once a European Regulation has been passed it becomes part of the laws of Member States and overrides any contrary domestic provision.

- 2062/94 (EC) Regulation on establishing a European agency for safety, hygiene and health at work
 1907/2006 (EC) Regulation concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency
 1272/2008 Regulation on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No. 1907/2006

APPROVED GUIDES, LISTS AND REQUIREMENTS

- L131 (2012) Approved classification and labelling guide (Sixth edition). Chemicals (Hazard Information and Packaging for Supply) Regulations 2002

APPROVED CODES OF PRACTICE

Asbestos

- L127 (2006) The management of asbestos in non-domestic premises. Regulation 4 of the Control of Asbestos at Work Regulations (ISBN 978 0 7176 6209 8)
 L143 (2006) Work with materials containing asbestos. Control of Asbestos Regulations 2006

Confined Spaces

- L101 (2009) Safe work in confined spaces

Construction

- L144 (2007) Managing health and safety in construction. Construction (Design and Management) Regulations 2007

Control of Substances Hazardous to Health

- L5 (2013) Control of substances hazardous to health (sixth edition)

Consulting Workers

- L146 (2012) Consulting workers on health and safety (second edition)

Dangerous Substances

- L130 (2002) The compilation of safety data sheets (third edition)

First Aid

- L74 (2013) First aid at work (third edition)

Legionellosis

- L8 (2013) Legionnaires' disease (fourth edition)

Lift Trucks

- L117 (2013) Rider-operated lift trucks (third edition)

Management

- L21 (2000) Management of health and safety at work

Petroleum-Spirit

- COP6 (1982) Plastic containers with nominal capacities up to 5 litres for petroleum-spirit

Pressure Systems

- L122 (2000) Safety of pressure systems

CURRENT PROPOSALS AND NEW LEGISLATION

One of the functions of the Health and Safety Executive (HSE) is to submit proposals for the making of regulations dealing with health and safety at work. Before submitting proposals, the subject concerned is thoroughly researched and investigated and there is consultation with relevant parties in Government, industry, trade unions, etc. The HSE publishes discussion and consultative documents outlining the proposals to be submitted. Included below are brief details of some of the more important proposals currently being considered.

NEW LEGISLATION: UK

New UK legislation is available on the legislation.gov website at www.legislation.gov.uk/new

NEW EUROPEAN LEGISLATION

European legislation is published in the Official Journal, available at http://eur-lex.europa.eu/RECH_menu.do?ihmlang=en.

EUROPEAN LEGISLATION

European legislation is published in the Official Journal, available at http://eur-lex.europa.eu/RECH_menu.do?ihmlang=en.

APPROVED CODE OF PRACTICE AND GUIDANCE

HSE publications

These can be found at HSE Books (<http://books.hse.gov.uk/hse/public/home.jsf>) or on the HSE website (www.hse.gov.uk)

ADHERENTS

BS 5350:Methods of test for adhesives
Part A2:1990 (1997): Guide to the selection of adherend materials

AIR RECEIVERS

PD 5500:2009: Specification for unfired fusion welded pressure vessels

ASBESTOS

BS 6069:Characterisation of air quality
Part 4: Stationary source emissions

CHAINS, ROPES AND LIFTING TACKLE

BS 3810:Glossary of terms used in materials handling
Part 5:1971: Terms used in connection with lifting tackle
BS EN 818:Short link chain for lifting purposes. Safety (in several parts)
BS EN 13157:2004: Cranes, safety hand powered lifting equipment

COMPUTERS

BS 7083:1996: Guide to the accommodation and operating environment for information technology (IT) equipment
BS EN 60950:2006: Information technology equipment safety (in several parts)

CRANES

BS 5744:1979: Code of practice for safe use of cranes (overhead/ underhung travelling and goliath cranes, high pedestal and portal jib dockside cranes, manually-operated and light cranes, container handling cranes and rail-mounted low carriage cranes) (Partially replaced by Parts 1 to 3 of BS 7121)
BS 7121:Code of practice for safe use of cranes
Part 1: 2006: General
Part 2: 2003: Inspecting, testing and examination
Part 3: 2000: Mobile cranes
Part 4: 1997: Lorry loaders

DANGEROUS FUMES/GAS

BS 6069:Characterisation of air quality
Part 3: Workplace atmospheres
BS EN ISO 10882:Health and safety in welding and allied processes

DANGEROUS MACHINES

BS EN ISO12100:2003: Safety of machinery. Basic concepts, general principles for design
BS EN 626:Safety of machinery. Reduction of risks to health from hazardous substances omitted by machinery

EAR PROTECTORS

BS EN 352:Industrial hearing protectors. Safety requirements and testing
352-1: 2002: Ear muffs
352-2: 2002: Ear plugs
352-3: 2002: Ear muffs attached to an industrial safety helmet
BS EN 24869: Acoustics. Hearing protectors
24869-1: 1993: Sound attenuation of hearing protectors. Subjective methods of measurement
BS EN ISO 4869-3:2007: Acoustics. Hearing protectors. Measurement of insertion loss of ear-muff type protectors using an acoustic test fixture

ELECTRICAL

BS 5958:Code of practice for control of undesirable static electricity
Part 1: 1991: General considerations
Part 2: 1991: Recommendations for particular industrial situations
BS 7430:1998: Code of practice for earthing
BS 7540:2005: Guide to the use of cables with a rated voltage not exceeding 450/750v (in several parts)
BS 7671:2008: Requirements for electrical installations. IEE Wiring Regulations. Seventeenth edition
BS EN 60950:2006: Safety of information technology equipment (in several parts)

BS EN 60079-17:2007: Explosive atmospheres: Electrical installations, inspection and maintenance
BS EN 61000: Electromagnetic compatibility:
Part 4: Testing and measurement (in several parts)
Part 5: Installation and mitigation techniques (in several parts)

ENVIRONMENTAL MANAGEMENT

BS EN ISO 14001:2004: Environmental management systems. Requirements with guidance for use

EYES, PROTECTION OF

BS 4110:1999: Specification for visors for vehicle users
BS 7028:1999: Guide for selection, use and maintenance of eye-protection for industrial and other uses
BS EN 165:2005: Personal eye-protection. Vocabulary
BS EN 166:2002: Personal eye-protection. Specifications
BS EN 169:2002: Specification for filters for personal eye protection equipment used in welding and similar operations
BS EN 170:2002: Specification for ultraviolet filters used in personal eye protection equipment
BS EN 171:2002: Specification for infra-red filters used in personal eye protection equipment
BS EN 172:1995: Specification for sunglare filters used in personal eye-protectors for industrial use
BS EN 175:1997: Personal protection. Equipment for eye and face protection during welding and allied processes
BS EN 207:1999: Specification for filters and equipment used for personal eye protection against laser radiation
BS EN 208:1999: Specification for personal eye protectors used for adjustment work on lasers and laser systems

FIRE

Fire Vocabulary
BS 4422:2005: Fire. Vocabulary

Fire Safety and Building Design

PAS 911:2007: Fire strategies. Guidance and framework for their formulation
PAS 79:2007: Fire risk assessment. Guidance and a recommended methodology
BS 5499: Fire safety signs, notices and graphic symbols
Part 4: 2000: Code of practice for escape route signing
BS 5588: Fire precautions in the design and construction and use of buildings
Part 5: 2002: Access and facilities for firefighting
Part 6: 1991: Code of practice for places of assembly
Part 8: 1999: Code of practice for means of escape for disabled people
Part 11: 1997: Code of practice for shops, offices, industrial, storage and other similar buildings
BS 7899: Code of practice for assessment of hazard to life and health from fire (in 2 parts)
BS EN 1127: Explosive atmospheres: explosion prevention and protection
Part 1: 2007: Basic concepts and methodology
BS EN 13478:2002: Safety of machinery. Fire prevention and protection
BS EN ISO 13943:2000: Fire safety: vocabulary
BS ISO 19706:2007: Guidelines for assessing the fire threat to people
BS 9999:2008: Code of practice for fire safety in the design, management and use of buildings

Fire Detection and Alarm

BS 5839: Fire detection and alarm systems for buildings
BS EN 54: Fire detection and fire alarm systems
Part 1: 1996: Introduction
Part 2: 1998: Control and indicating equipment
Part 3: 2001: Sounders
Part 4: 1998: Power supply equipment
Part 7: 2001: Smoke detectors, point detectors using scattered light, transmitted light or ionisation
Part 10: 2002: Flame detectors and point detectors
Part 11: 2001: Manual call points
BS EN 62034:2006: Automatic test systems for battery powered emergency escape lighting

Procedure Title		Legal & Other Requirements

Revision Status	14	Issue Date	20/12/18
Issue Reason	Annual Review		

Fire Suppression

BS 5306: Fire extinguishing installations and equipment on premises
 Part 0: 1986: Guide for the selection of installed systems and other equipment
 Part 8: 2000: Code of practice for the selection and installation of portable fire extinguishers
 BS 7273: Code of practice for the operation of fire protection measures
 BS 7863:1996: Recommendations for colour coding to indicate the extinguishing media contained in portable fire extinguishers
 BS 9990:2006: Code of Practice for non-automatic firefighting systems in buildings
 BS EN 3: Portable fire extinguishers (in several parts)
 BS EN 1869:1997: Fire blankets

FLAME-ARRESTORS

BS EN 60079-6 2007: Explosive atmospheres. Equipment protected by oil immersion "o"
 BS EN 60079-5 2007: Explosive atmospheres. Equipment protection by powder filling "q"
 BS 7244:1990: Specification for flame arresters for general use

FOOT AND LEG PROTECTION

BS EN ISO 20344:2004: Personal protective equipment. Test methods for footwear
 BS EN ISO 20345:2004: Personal protective equipment. Safety footwear
 BS EN ISO 20346:2004: Personal protective equipment. Protective footwear
 BS EN ISO 20347:2004: Personal protective equipment. Occupational footwear

GANGWAYS AND POURING AISLES

BS 595:Stairs, ladders and walkways (in three parts)

HOISTS AND LIFTS

BS EN 1495:1998: Lifting platforms: mast climbing work platforms

LADDERS

BS 1129:1990: Specification for portable timber ladders, steps, trestles and lightweight stagings
 BS 2037:1994: Specification for portable aluminium ladders, steps, trestles and lightweight stagings
 BS 4211:2005: Specification for permanently fixed ladders

LIFTING AND CARRYING

BS 6166:Lifting slings
 Part 3: 1988: Guide to the selection and safe use of lifting slings for multi-purposes
 BS EN 13414:2003: Steel wire rope slings (in three parts)
 BS EN 818:Short link chain for lifting purposes. Safety (in seven parts)

LIGHTING

BS 5266: Emergency lighting (in several parts)
 BS EN 12464: Lighting of workplaces
 Part 1: 2002: Indoor work places
 Part 2: 2007: Outdoor work places
 BS EN 60598: Part 2-22: 1999: Luminaires. Particular requirements. Luminaires for emergency lighting

MACHINE SAFETY

BS 5667:Specification for continuous mechanical handling equipment — safety requirements (in several parts)
 BS EN 349:1993: Safety of machinery. Minimum gaps to avoid crushing of parts of the human body
 BS EN 414:2000: Safety of machinery. Rules for the drafting and presentation of safety standards
 BS EN ISO 12100:Safety of machinery (in two parts)
 BS EN ISO 14121:2007: Safety of machinery. Risk assessment. Principles
 PD 5304:2005: Guidance on safe use of machinery
 BS 18004:2008: Guide to achieving effective occupational health and safety performance

MANAGEMENT OF HEALTH AND SAFETY

BS 18004:2008: Guide to achieving effective occupational health and safety performance
 OHSAS 18001: 2007: Occupational health and safety management systems. Requirements

Procedure Title		Legal & Other Requirements	
Ref Number	MLP-HSP-013	Pages	28
Written By	Rob Tyson	Authorised By	Mervyn Lambert
Revision Status	14	Issue Date	20/12/18
Issue Reason	Annual Review		

OHSAS 18002: 2008: Occupational health and safety management systems. Risk assessment

NOISE

BS 5228: Noise and vibration control on construction and open sites
BS 6812: Airborne noise emitted by earth-moving machinery
BS EN 352: Industrial hearing protectors. Safety requirements and testing
352-1: 1993: Ear muffs
352-2: 1993: Ear plugs
352-3: 1997: Ear-muffs attached to an industrial safety helmet
BS EN 24869: Acoustics. hearing protectors

OVERHEAD CRANES

BS 7121: Code of practice for safe use of cranes
Part 1: 2006: General
Part 2: 2003: Inspection, testing and examination

PAINTING

BS EN 50050:2006: Electrical apparatus for potentially explosive atmospheres. Electrostatic hand-held spraying equipment

PERSONAL PROTECTIVE EQUIPMENT

BS 5426:1993: Specification for workwear and career wear
BS EN 175:1997: Personal protection. Equipment for eye and face protection during welding and allied processes
BS EN 340:2003: Protective clothing. General requirements
BS EN ISO 20344:2004: Personal protective equipment. Test methods for footwear
BS EN ISO 20345:2004: Personal protective equipment. Safety footwear
BS EN ISO 20346:2004: Personal protective equipment. Protective footwear
BS EN ISO 20347:2004: Personal protective equipment. Occupational footwear
BS EN 374: Protective gloves against chemicals and micro-organisms
Part 1: 2003: Terminology and performance requirements
Part 2: 2003: Determination of resistance to penetration
Part 3: 2003: Determination of resistance to permeation by chemicals
BS EN 388:2003: Protective gloves against mechanical risks
BS EN 397:1995: Specification for industrial safety helmets
BS EN 407:2004: Protective gloves against thermal risks (heat and/ or fire)
BS EN 471:2003: High-visibility warning clothing for professional use. Test methods and requirements
BS EN 510:1993: Specification for protective clothing for use where there is a risk of entanglement with moving parts
BS EN 511:2006: Protective gloves against the cold
BS EN 812:1998: Industrial bump caps
BS EN 50286:2001: Electrical insulating protective clothing for low voltage installations
BS EN ISO 6942:2002: Protective clothing. Protection against heat and fire. Method of test: Evaluation of materials and material assemblies when exposed to a source of radiant heat
BS EN ISO 11611:2007: Protective clothing for use in welding and allied processes
BS EN ISO 15025:2002: Protective clothing. Protection against heat and flame. Method of test for limited flame spread
BS EN 367:1992: Protective clothing. Protection against heat and fire. Method for determining heat transmission on exposure to flame

POWER TOOLS

BS EN 1148-4:2012 Hand held non electric power tools

RESPIRATORY PROTECTIVE EQUIPMENT

BS EN 136: Respiratory protective devices. Full face masks. Requirements, testing, marking
BS EN 137:2006: Respiratory protective devices: self-contained open circuit compressed air breathing apparatus
BS EN 138:1994: Respiratory protective devices. Specification for fresh air hose breathing apparatus for use with full face mask, half mask or mouthpiece assembly

Procedure Title		Legal & Other Requirements	
Ref Number	MLP-HSP-013	Pages	28
Written By	Rob Tyson	Authorised By	Mervyn Lambert
Revision Status	14	Issue Date	20/12/18
Issue Reason	Annual Review		

BS EN 140:1999: Respiratory protective devices. Half masks and quarter masks. Requirements, testing, marking
 BS EN 142:2002: Respiratory protective devices. Mouthpiece assemblies. Requirements, testing, marking
 BS EN 148-1:1999: Respiratory protective devices: threads for facepieces. Standard thread connection
 BS EN 148-2:1999: Respiratory protective devices: threads for facepieces. Centre thread connection
 BS EN 143:2000: Respiratory protective devices. Particle filters. Requirements, testing, marking
 BS EN 144: Respiratory protective devices — gas cylinder valves (in three parts)
 BS EN 149:2001: Respiratory protective devices: Half masks and quarter masks. Requirements, testing, marking
 BS EN 269:1995: Respiratory protective devices. Specification for powered fresh air hose breathing apparatus incorporating a hood
 BS EN 529:2005: Respiratory protective devices. Recommendations for selection, use, care and maintenance. Guidance document
 BS EN 13274: Respiratory protective devices: methods of test
 Part 4: 2001: Flame tests

SAFE LOAD INDICATORS

BS 7262:1990: Specification for automatic safe load indicators

SAFETY HARNESSSES

BS EN 353: Personal protective equipment against falls from a height. Guided type fall arresters (in two parts)
 BS EN 354:2002: Personal protective equipment against falls from a height. Lanyards
 BS EN 355:2002: Personal protective equipment against falls from a height. Energy absorbers
 BS EN 358:2000: Personal equipment for work positioning and prevention of falls from a height. Belts for work positioning and restraint and work positioning lanyards
 BS EN 360:2002: Personal protective equipment against falls from a height. Retractable type fall arresters
 BS EN 361:2002: Personal protective equipment against falls from a height. Full body harnesses
 BS EN 362:2004: Personal protective equipment against falls from a height. Connectors
 BS EN 363:2002: Personal protective equipment against falls from a height. Fall arrest systems
 BS EN 364:1993: Personal protective equipment against falls from a height. Test methods
 BS EN 365:2004: Personal protective equipment against falls from a height. General requirements for instructions for use and for marking

SAFETY SIGNS

BS 1635:1990: Recommendations for graphic symbols and abbreviations for fire protection drawings
 BS 3510:1968: Specification for a basic symbol to denote the actual or potential presence of ionising radiation
 BS 5378: Safety signs and colours
 BS 5499: Graphical symbols and signs. Safety signs, including fire safety signs
 Part 1: 2002: Specification for geometric shapes, colours and layout
 Part 2: 1986(1995): Specification for self-luminous fire safety signs
 Part 4: 2000: Code of practice for escape route signing
 BS EN 80416: Basic principles for graphical symbols for use on equipment
 Part 2: 2001: Form and use of arrows

SANITARY CONVENIENCES

BS 6465: Sanitary installations
 Part 1: 2006: Sanitary installations. Code of practice for the design of sanitary facilities and scales of provision of sanitary and associated appliances

SCAFFOLDING

BS 1139: Metal scaffolding (in several parts)
 BS 2037:1994: Specification for portable aluminium ladders, steps, trestles and lightweight stagings
 BS 4211:2005: Specification for permanently fixed ladders
 BS 5507: Methods of test for falsework equipment
 BS 5531:1988: Code of practice for safety in erecting structural frames
 BS 5974:1990: Code of practice for temporarily installed suspended scaffolds and access equipment

Procedure Title		Legal & Other Requirements	
Ref Number	MLP-HSP-013	Pages	28
Written By	Rob Tyson	Authorised By	Mervyn Lambert
Revision Status	14	Issue Date	20/12/18
Issue Reason	Annual Review		

BS EN 12811:2003: Temporary works equipment. Part 1: Scaffolds. Performance requirements and general designs
BS EN 280:2001: Mobile elevating work platforms. Design calculations

STAIRWAYS

BS 5395: Stairs, ladders and walkways

TEMPERATURE

BS 1041: Code for temperature measurement (in several parts)

TRANSPORTABLE GAS CONTAINERS

BS 341: Transportable gas container valves
Part 1: 1991: Specification for industrial valves for working pressures up to and including 300 bar
BS EN 1802:2002: Transportable gas cylinders. Periodic inspection and testing of seamless aluminium alloy gas cylinders
BS EN 1803:2002: Transportable gas cylinders. Periodic inspection and testing of welded carbon steel gas cylinders
BS EN 1968:2002: Transportable gas cylinders. Periodic inspection and testing of seamless steel gas cylinders
BS EN 1089: Transportable gas cylinders.
Part 3: 2004: Gas cylinder identification (excluding LPG). Colour coding
BS EN 14876:2007: Transportable gas cylinders. Periodic inspection and testing of welded steel pressure drums
BS EN ISO 10297:2006: Transportable gas cylinders. Cylinder valves. Specification and type testing

VENTILATION

Section 2: 1971 (1987): Ventilation

VIBRATION

BS 6841:1987: Guide to measurement and evaluation of human exposure to whole-body mechanical vibration and repeated shock
BS 7085:1989: Guide to safety aspects of experiments in which people are exposed to mechanical vibration and shock
BS EN ISO 5349:2001: Part 1: Mechanical vibration and evaluation of human exposure to hand transmitted vibration. General requirements

VISUAL DISPLAY TERMINALS

BS EN ISO 9241: Ergonomic requirements for office work with visual display terminals (VDTs)
9241-1: 1997: General introduction
9241-4: 1998: Specifications for keyboards
9241-5: 1999: Workstation layout and posture requirements
BS EN 29241: Ergonomic requirements for office work with visual display terminals (VDTs)
1992: Part 2: Guidance on task requirements
1993: Part 3: Visual display terminals

WASTE, DISPOSAL OF

BS 5906:2005: Waste management in buildings. Code of practice

WELDING AND CUTTING

BS 5924:1989: Specification for safety requirements for the construction and the installation of equipment for resistance welding and allied processes
BS 6942: Design and construction of small kits for oxyfuel gas welding and allied processes
BS EN 169:2002: Specification for filters for personal eye-protection equipment used in welding and similar operations
BS EN 175:1997: Personal protection. Equipment for eye and face protection during welding and allied processes
BS EN 1326:1996: Gas welding equipment: Small kits for gas brazing and welding
BS EN 559:2003: Gas welding equipment. Rubber hoses for welding, cutting and allied processes
BS EN ISO 10882: Health and safety in welding and allied processes
BS EN 150 11611:2007: Protective clothing for use in welding and allied processes

Procedure Title		Legal & Other Requirements	
Ref Number	MLP-HSP-013	Pages	28
Written By	Rob Tyson	Authorised By	Mervyn Lambert
Revision Status	14	Issue Date	20/12/18
Issue Reason	Annual Review		

WOODWORKING MACHINERY

BS EN 847: Tools for woodworking
 2005: Part 1: Milling tools and circular saw blades
 2001: Part 2: Requirements for the shank of shank-mounted milling tools
 2004: Part 3: Clamping devices

WORKING PLATFORMS

BS EN 280:2001: Mobile elevating work platforms. Design calculations, stability criteria, construction safety, examinations and tests

WORKING SPACE

BS EN 527:Part 1:2000: Office furniture. Work tables and desks. Dimensions
 BS EN 1335:2000: Office furniture. Office work chair. Dimensions. Determination of dimensions (in three parts)
 BS EN ISO 10075:2000: Ergonomic principles related to mental workload (in three parts)

Appendix A: DOCUMENT DISTRIBUTION LIST

Where a document is printed and distributed within the organisation, a list is kept of all owners in order to control amendments and subsequent recalls. Where copies are supplied to external individuals or organisations these shall be marked as **UNCONTROLLED** at the time of issue.

Document Distributed:	i.e. Health, Safety or Environmental Policy or Procedure	
Version Distributed	Issued to (Name)	Date of Issue
